Alfresco 5.0 kompakt-Holger Reibold 2015-11-10 In Unternehmen entstehen täglich bergweise Dokumente. Doch bei den Mengen und der Vielfalt der verschiedensten Dokumente und Content-Elemente versagen klassische Ablagesysteme. Heute bedarf es professioneller Lösungen, die die Verwalten und die Zugriffsteuerung übernehmen. In diesem Bereich nimmt Alfresco eine Ausnahmestellung ein, denn diese Lösung definiert das Dokumentenmanagement neu. Alfresco bietet verschiedene neue und erweiterte Konzepte für das Handling unterschiedlichster Dokumententypen – und das alles bei einem Maximum an Sicherheit. Dabei ist das System so flexibel ausgelegt, dass es in kleineren Unternehmen genauso eine gute Figur macht wie in Großunternehmen. In dem vorliegenden Buch nimmt der Autor Sie mit auf eine Reise durch die verschiedenen Funktionen und Möglichkeiten, die die Alfresco Community Edition Unternehmen bietet. Dabei erhalten Sie einen umfassenden Überblick über die Anwendungsbereiche. In diesem Einstieg erfahren Sie, wie Sie Alfresco 5.0 installieren und konfigurieren. Sieren lernen die wichtigsten administrativen Aufgaben genauso kennen, wie die Integration von gängigen Office-Lösungen. Digital Business Leadership-Ralf T. Kroutzer 2018-04-27 This book provides specialists and executives with a clear, yet practical set of recommendations to meet the challenges of digital transformation and ensure long-term success as a leader in a primarily digital business world. The authors describe the fundamental principles of digitization and its economic opportunities and risks, integrating them into a framework of classic and new management methods. The book also explores how increasing digitization – not only of communication, but of complete value chains – has led to a need to establish a digital business leadership. Digitization is changing people and markets; it causes the upheaval of entire industries, creates new digital-centric companies, and forces established companies to cope with the transformation activities associated with these digitization processes. New approaches and methods have to be learned, tried and tested patterns of thinking have to be explored, and last but not least, innovation activities have to be understood as continuous necessities. At the same time, digital business offers considerable opportunities for renewing competitive advantages, improving existing process structures and realigning products, services and business models.

Twelve Years A Slave (Illustrated)-Solomon Northup 2014-08-22 Twelve Years a Slave (1853) is a memoir and slave narrative by Solomon Northup, as told to and edited by David Wilson. Northup, a black man who was born
The Official BBC micro:bit User Guide-Gareth Halfacree 2017-10-05 The go-to guide to getting started with the BBC micro:bit and exploring all of its amazing capabilities. The BBC micro:bit is a pocket-sized electronic development platform built with education in mind. It was developed by the BBC in partnership with major tech companies, communities, and educational organizations to provide kids with a fun, easy, inexpensive way to develop their digital skills. With it, kids (and grownups) can learn basic programming and coding while having fun making virtual pets, developing games, and a whole lot more. Written by internationally bestselling tech author Gareth Halfacree and endorsed by the Micro:bit Foundation, The Official BBC micro:bit User Guide contains what you need to know to get up and running fast with the BBC micro:bit. Learn everything from taking your first steps with the BBC micro:bit to writing your own programs. You'll also learn how to expand its capabilities with add-ons through easy-to-follow, step-by-step instructions. Set up your BBC micro:bit and develop your digital skills Write code in JavaScript Blocks, JavaScript, and Python Discover the BBC micro:bit's built-in sensors Connect the BBC micro:bit to a Raspberry Pi to extend its capabilities Build your own circuits and create hardware The Official BBC micro:bit User Guide is your go-to source for learning all the secrets of the BBC micro:bit. Whether you're just beginning or have some experience, this book allows you to dive right in and experience everything the BBC micro:bit has to offer.

Show What You Mean-Kim Golombisky 2017-01-15

Aching Melodies-Dr. Molly Joseph M. 2013-12-04 Aching Melodies resonates with a yearning for the lost world, the loss of a green past ravaged by the onslaught of man, time, and technology. There is a bold exploration of the grim realities of the day— atrocities committed against nature, women, and helpless humanity. We hear the anguished cry of helpless victims caught up in an earthquake or in a reckless bombing. There is the poignant predicament of a woman who is threatened by the shadow that can jump on her in an unguarded moment and, of course, the ultimate victimization wherein she turns out to be just another statistical casualty. The free verse straddles between memory and nostalgia. The contours of subjectivity create a ripple effect on the reader's psyche. The local becomes the universal. Here is a worldview that encompasses all—the mind that grows co

Digital Darwinism-Ralf T. Kreutzer 2014-09-19 Digital Darwinism is a key challenge for all companies and brands. New wall companies and newcomers are aware of the challenges lying ahead. This book helps to identify the need for change and adaption based on a framework of findings and additional tools to position you and your company in the digital rat race.

Praying Through Your Pregnancy-Jennifer Polimino 2010-03-12 Praying Through Your Pregnancy shows a mother how to provide an early head start for her child through the power of prayer. With fresh spiritual insight, each chapter reveals what is happening with the baby's development that week, starting with the very first moment of conception, when God begins the creation of either a boy or a girl. Readers will learn how the confidence they place in God affects the healthy development of their precious growing baby, and how to reduce those unpleasant hunger pains? These are just three of the main—legitimate—questions answered in this book. They have also detailed how you can best nourish your Body. The expertise of the authors is based on a wealth of professional in-depth knowledge, years of experience, together with the observations of numerous participants over the course of the diet.

Kraftwerk: Publikation-David Buckley 2015-06-13 Updated to include details of the group's recent concerts under the direction of Ralf Hutter. David Buckley examines the cult enigma that is Kraftwerk, including their beginnings in the avant-garde musical terrain of late-Sixties Germany and their Anglo-American breakthrough with Autobahn in 1975, as well as their astonishingly prescient work, which drew the musical template for techno, ambient, dance and all manner of electronic pop. Includes an interview with former member Wolfgang Flur. The inner workings of this most secretive of bands are revealed through interviews with friends and close associates, whilst the story of their incredible impact on modern music is traced up to the present day using interviews with a host of musicians, from original electro pioneers such as Gary Numan, the Human League, OMD and John Foxx, to

(US Edition) Rebalance your metabolism in 21 days - the Original - Arno Schikowsky 2015-03-02 This book is a comprehensive guide that will help you to undertake the 21 Day Metabolic Diet properly and successfully. To date, hundreds of thousands of People have done it with unprecedented success. The authors have made a conscious effort to keep their explanations simple and clear as to the method and Background behind it. They explain in an easily understandable way why so many people have had quick and lasting results without the dreaded "yo-yo" effect afterwards. Are high quality nutritional Supplements useful and how should they be used? How do metabolic activators work and why are they so important, especially with this diet? Why do you not get those unpleasant hunger pains? These are just three of the main—legitimate—questions answered in this book. They have also detailed how you can best nourish your Body. The expertise of the authors is based on a wealth of professional in-depth knowledge, years of experience, together with the observations of numerous participants over the course of the diet.

free in New York, details his kidnapping in Washington, D.C. and subsequent sale into slavery. After having been kept in bondage for 12 years in Louisiana by various masters, Northup was able to write to friends and family in New York, who were in turn able to secure his release. Northup's account provides extensive details on the slave markets in Washington, D.C. and New Orleans and describes at length cotton and sugar cultivation on major plantations in Louisiana.
contemporary acts still in awe of the original Man Machines.

Welcome-Elizabeth Gray 2014-01 Welcome 1 and 2 are designed for children learning English at primary level. A lively group of characters invites pupils to join in the fun as Masid, the magical genie, transports them to new and exciting places. The moderate grading of the syllabus enables pupils to use English effectively while developing all four language skills - listening, reading, speaking and writing. The Pupil’s Book and the Workbook are designed to be covered in approximately 80 to 100 hours of classroom work.

KVM Virtualization Cookbook-Konstantin Ivanov 2017-06-16 Deploy, manage, and scale virtual instances using Kernel-based Virtual Machines About This Book Build, manage and scale virtual machines with practical step-by-step examples. Leverage the libvirt user-space tools and libraries to manage the life-cycle of KVM instances Deploy and scale applications inside KVM virtual machines with OpenStack Who This Book Is For If you are a system administrator working KVM virtualization, this book will help you grow on your expertise of working with the infrastructure to manage things in a better way. You should have a knowledge of working with Linux based systems. What You Will Learn Deploy different workloads in isolation with KVM virtualization and better utilize the available compute resources Explore the benefits of running applications with KVM and learn to prevent the “bad-neighbor” effect Leverage varying networking technologies in the context of virtualization with Open vSwitch and the Linux bridge. Create KVM instances using Python and inspect running KVM instances Understand Kernel Tuning for enhanced KVM performance and better memory utilization In Detail Virtualization technologies such as KVM allow for better control over the available server resources, by deploying multiple virtual instances on the same physical host, or clusters of compute resources. With KVM it is possible to run various workloads in isolation with the hypervisor layer providing better tenant isolation and higher degree of security. This book will provide a deep dive into deploying KVM virtual machines using qemu and libvirt and will demonstrate practical examples on how to run, scale, monitor, migrate and backup such instances. You will also discover real production ready recipes on deploying KVM instances with OpenStack and how to programatically manage the life cycle of KVM virtual machines using Python. You will learn numerous tips and techniques which will help you deploy & plan the KVM infrastructure. Next, you will be introduced to the working of libvirt libraries and the python development environment. Finally, you will be able to tune your Linux kernel for high throughput and better performance. By the end of this book, you will gain all the knowledge needed to be an expert in working with the KVM virtualization infrastructure. Style and approach This book takes a complete practical approach with many step-by-step example recipes on how to use KVM in production. The book assumes certain level of expertise with Linux systems and virtualization in general. Some knowledge of Python programming is encouraged, to fully take advantage of the code recipes.

Purestyle-Jane Cumberbatch 2005-01-01 Jane Cumberbatch’s unique approach to decoration is based on the timeless appeal of all things simple and natural. Pure Style pioneered the trend for uncluttered interiors. With its advocacy of clean outlines, crisp fabrics and natural materials, it reaches beyond the bounds of interior decoration, offering a new way of living that is respectful of the environment. Written by Jane and Henry Bourne, the book shows how colours, fabrics, textures, items of furniture, decorative objects and lighting are appropriate to the style - and goes on to demonstrate how to bring them together to create your own interpretation of the look.

Less-Rachel Aust 2018-06-12 Simplify life and amplify living by mastering the fundamentals of minimalism through this visual guide to embracing a minimalist lifestyle. How can living with less contribute to a greater sense of fulfillment? It seems contradictory, yet the minimalist lifestyle, which focuses on scaling back your possessions and simplifying your life to just the essentials, achieves just that. Adopt minimal living, and you’ll find that less is more: More time because you don’t waste it caring for and organizing stuff. More space because you don’t fill it with objects of marginal value. More money because you don’t spend it on unnecessary things. More clarity because your mind isn’t bogged down by the clutter around you. More enjoyment because your energy is spent on experiences and connections. Using decision trees, flow charts, icons, and other graphics, Less shows how minimalism can be applied to any area of life—including home, wardrobe, decor, cooking, cleaning, finances, and organizing your time—and how it can be adapted to suit your own goals and help you achieve your version of happiness.

Excel Dashboards and Reports-Michael Alexander 2010-08-06 The go to resource for how to use Excel dashboards and reports to better conceptualize data Many Excel books do an adequate job of discussing the individual functions and tools that can be used to create an “Excel Report.” What they don’t offer is the most effective ways to present and report data. Offering a comprehensive review of a wide array of technical and analytical concepts, Excel Reports and Dashboards helps Excel users go from reporting data with simple tables full of dull numbers, to presenting key information through the use of high-impact, meaningful reports and dashboards that will wow management both visually and substantively. Details how to analyze large amounts of data and report the results in a meaningful, eye-catching visualization Describes how to use different perspectives to achieve better visibility into data, as well as how to slice data into various views on the fly Shows how to automate redundant reporting and analyses Part technical manual, part analytical guidebook, Excel Dashboards and Reports is the latest addition to the Mr. Spreadsheet’s Bookshelf series and is the leading resource for learning to create dashboard reports in an easy-to-use format that’s both visually attractive and effective.

Cosmode USA 1-Broccoli Books 2008-06-01 Cosplay is a white-hot Japanese subculture devoted to dressing — and acting — as famous characters from manga, anime, tokusatsu, video games, and other pop culture phenomena. COSMODE #1 brings this fanfical, fan activity to Western readers for the first time. This colorfully illustrated magazine-style book features everything from tips from American cosplay peers and Japanese masters, to how hair and makeup can make or break a costume. Imaginative photo shoots of Japanese and American cosplayers in action offer inspiration to newcomers.

New Scandinavian Design-Anja Llorella 2005 Scandinavian design is known for its innovation, functionality, pure lines and original forms. In Denmark, Finland, Iceland, Nor way and Sweden, designs are often inspired by nature and fulfill both functional and aesthetic criteria. Discover through these 400 pages with color photos the new trends in Scandinavian architecture, furniture and product design. Book jacket.

Reviving Critical Planning Theory-Tore Ölvin Sager 2012-08-21 Discussing some of the most vexing criticism of communicative planning theory (CPT), this book goes on to suggest how theorists and planners can respond to it. Looking at issues of power, politics and ethics in relation to planning, this book is for both critics and advocates of CPT, with less for all. With severe criticisms being raised against CPT, the need has arisen to systematically think through what responsibilities planning theorists might have for the end-uses of their theoretical work. Offering inventive proposals for amending the shortcomings of this widely adhered planning method, this book reflects on what communicative planning theorists and practitioners can and should do differently.

Content Marketing For Dummies-Susan Gunelius 2011-05-12 Get the whole picture and learn to create a successful onlinecontent marketing program Successful online marketing is about more than creating a Facebook page or writing a corporate blog. Brands need to build lasting connections with the right customers online through an effective online content marketing strategy, and this book shows you how. It explores what ways create a content marketing strategy, identify the content that will keep your customers coming back, create that content, distribute it online, and measure the results, with hands-on, step-by-step guidance. Content marketing is an essential element of successful online marketing and brand-building; this book shows you how to begin creating and distributing content online to market your business Explains why content marketing is important and how to create an online content marketing strategy, which tools to use, and what to avoid Shows how to create content and get it published online in longer form Offers plenty of tips, case studies, and worksheets to ensure success Online content marketing positions your business and your product for lasting customer interaction, Content Marketing For Dummies gives you the tools to create a program that works.

A Pretext for War-James Bamford 2005-05-10 A Pretext for War reveals the systematic weaknesses behind the failure to detect or prevent the 9/11 attacks, and details the Bush administration’s subsequent misuse of
intelligence to sell preemptive war to the American people. Filled with unprecedented revelations, from the sites of “undisclosed locations” to the actual sources of America’s Middle East policy. A Pretext for War is essential reading for anyone concerned about the security of the United States. Acclaimed author James Bamford—whose classic book The Puzzle Palace first revealed the existence of the National Security Agency—draws on his unparalleled access to top intelligence sources to produce a devastating expose of the intelligence community and the Bush administration.

Junior Tomlin- 2020-06 Showcasing the mastermind behind some of the most iconic rave flyers and record covers of the late eighties and early nineties, Junior Tomlin: Flyer & Cover Art is a comprehensive insight into Junior’s incredible back catalogue. Intrinsically to the spread of rave culture in pre-internet days was the dissemination of flyers, giving ravers information on where and when promos would be organising parties. To stand out from the competition events needed to have distinctive flyer artwork and Junior’s visionary capabilities led to a long-running career as flyer artist. His often surreal imagery earned him the title ‘The Salvador Dalí of rave’. 30 years since he designed his first flyer, this book documents his work, with commentary and draft sketches provided by Junior himself. Chronicling the work of a pioneering artist whose art was part of the visual identity of early rave culture, Junior Tomlin: Flyer & Cover Art marks a critical time in British history. In a time where division and conflict seem to be more prevalent than ever, the book allows us to escape into Junior’s fantasy worlds and travel back in time to an era when social barriers were being broken down.

The Palgrave Handbook of Literary Translation- Jean Boase-Beier 2018-06-26 This Handbook offers a comprehensive and engaging overview of contemporary issues in Literary Translation research through in-depth investigations of actual case studies of particular works, authors or translators. Leading researchers from across the globe discuss best practice, problems, and possibilities in the translation of poetry, novels, memoir and theatre. Divided into three sections, these illuminating analyses also address broad themes including translation style, the author-translator-reader relationship, and relationships between national identity and literary translation. The case studies are drawn from languages and language varieties, such as Catalan, Chinese, Dutch, English, French, German, Hebrew, Italian, Japanese, Nigerian English, Russian, Spanish, Scottish English and Turkish. The editors provide thorough introductory and concluding chapters, which highlight the value of case study research, and explore in detail the importance of the theory-practice link. Covering a wide range of topics, perspectives, methods, languages and geographies, this handbook will provide a valuable resource for researchers not only in Translation Studies, but also in the related fields of Linguistics, Languages and Cultural Studies, Stylistics, Comparative Literature or Literary Studies.

Linear Time Playing- Gary Chaffee 1993-12 An introduction to linear time playing. The first section contains basic exercises for linear playing skills: voice coordination, dynamic balance, accenting, and more. The second section deals with the development of time feels in the linear style, including 4/4, half-time, shuffle, and odd meter feels.

Building with Cob- Adam Weismann 2006 Building with Cob shows how to apply this ancient technique in a wide variety of contemporary situations, covering everything from design and siting, mixing, building walls, fireplaces, ovens and floors, lime and other natural finishes, and gaining planning permission and building regulation approval.

You Can Achieve More- Shiv Khera 2018-08-23 While it is often said that a person with a negative attitude cannot be helped, it is also true that a person with a positive attitude cannot be stopped. Life is an obstacle course in which we can often become our own biggest obstacle, but a positive attitude can be transformational. In one sense, this book is a road map for a life journey in achieving more. It offers direction and can help you make positive decisions in a noisy and cluttered environment. Success is neither a miracle nor a mystery. It is the natural outcome of consistently applying certain principles on an ongoing basis. Success does not depend upon special skills, formal education or superior intelligence. Success is a matter of understanding and acting upon principles that have been in existence for centuries. These principles may be simple in themselves but none of them will work unless they are put into firm and decisive action. This book effectively teaches not only the principles of success but also how to avoid expensive and demoralising mistakes. The principles themselves are universal, cutting across country, culture and religion. Diligently practising them will help you develop confidence and allow your life to become more meaningful and rewarding. Applying these principles may require a lot of self-discipline and commitment but, once learned and applied, the results can be rewarding and gratifying. If you want to be successful and happy, then become a student and study the life of successful people in depth; if you want to become wealthy, then study the principles of acquiring wealth. Learning to make a living and learning to live are two different things. This book helps you design a more meaningful life, by making positive choices and avoiding the most common pitfalls. Acquiring facts is knowledge; interpreting facts is understanding; and the proper application of facts is wisdom. This book by Shiv Khera is designed to help you create an action plan to optimize your potential - in other words, to achieve more.

Discipline Without Damage- Vanessa Lapointe 2015-12-21 In this easy-to-read, science-based book, parents, caregivers, and adults of all kinds discover how discipline affects children’s development, why intervention should reinforce connection not separation, and why the disciplinary strategies that may have been used on us as children are not the ones that children really need. As a practicing child and family psychologist and advisor to the British Columbia ministry of children and families, Dr. Vanessa has seen it all, and she has navigated hundreds of tough situations with families. Drawing on scientific research and a wealth of clinical experience, she shows you how to put out the fire without dampening your child’s spirits; how to correct their behavior while emphasizing connection; and how to discipline without damage.

The Write Start- Jennifer Hallissy 2010-12-28 How do you raise children who love to write? Jennifer Hallissy believes that if you give children a solid foundation of writing basics, they will develop a love of writing that lasts a lifetime. In this book, she shares the secrets for supporting young writers, from the smallest of scribblers to middle-schoolers mastering script. You play an important role in nurturing your child’s writing development. You are your child’s first writing teacher, and their most important writing role model. From teaching your child how to hold a pencil and form the letters of the alphabet, to creating writing spaces and meaningful writing rituals at home, this book gives you all of the information and inspiration you need to raise a confident writer. Fifty-two playful activities are presented as ways to invite your child to write. Each activity offers specific suggestions to meet the needs of Scribblers (pre-writers), Spellers (emerging writers), Storytellers (beginner writers), and Scribes (developing writers). The Write Start is a treasure trove of irresistible ideas that will help you introduce your child to the wonderful world of writing, now, and for years to come.

We're Gonna Die- Young Jean Lee 2015 A cabaret from an Obie Award-winning, experimental playwright centers on the concept of mortality and includes a CD featuring six songs and monologues performed by David Byrne, Laurie Anderson and Adam Horowitz. Original.

Geographies of the New Economy- Peter W. Daniels 2006-12-11 What is the ‘new economy’? Where is it? How does it differ from the ‘old economy’? How does the ‘new economy’ relate to issues such as the nature of work, social inclusion and exclusion? Geographies of the New Economy explores the meaning of the ‘new economy’ at the global scale from the perspective of advanced post-socialist and emerging economies. Drawing on evidence from regions around the world, this book debates the efficacy of the widely used concept of the ‘new economy’ and examines its socio-spatial consequences. This book is important reading for policy-makers, academics and students of geography, sociology, urban studies, economics, planning and policy studies.

Flames- Stephen Dolginoff 2014-08-27 One year ago, Edmond died in a horrible fire. He took with him the dreams of his fiancée, Meredith, the trust of his best friend, Eric, and the answers to the burning questions that still linger about his death and the terrible crime he committed. But on a stormy night at the cemetery where he rests, the secrets from his past will finally refuse to stay buried; and those he left behind will finally refuse to stay silent. In this original, suspense-filled musical thriller by the author/composer of “Thrill Me,” there are enough twists, turns...
Family Tourism - Heike Schanzel 2012 This cutting-edge international book brings together leading experts' latest research in the field of family tourism by adding to its underdeveloped knowledge base. Family Tourism: Multidisciplinary Perspectives underlines the infancy of academic family tourism research that belies its market importance and directs towards future implications and theoretical debates about the place of families within tourism.

and surprises to keep the audience guessing up until the final shocking moments.
